PROFESSIONAL SUMMARY

Detail-oriented **Data Analyst Fresher** with strong hands-on experience in **SQL, Python, Power BI, and Excel**, specializing in **data cleaning, exploratory data analysis (EDA), KPI reporting, and dashboard development**. Skilled in analyzing structured datasets, identifying patterns, and generating **actionable insights through data visualization techniques**. Demonstrated ability to transform raw data into meaningful information to support **data-driven decision-making**. Seeking an entry-level **Data Analyst / Business Analyst** role to apply analytical and problem-solving skills in a data-driven organization.

TECHNICAL SKILLS

Data Analysis & BI

- Data Cleaning, Data Validation, Exploratory Data Analysis (EDA)
- KPI Reporting, Business Insights, Dashboard Development
- Predictive Modeling (Classification & Regression)

Programming & Tools

- **Python:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **SQL:** Joins, Subqueries, Aggregations, Group By, Case Statements
- **Power BI:** Interactive Dashboards, Data Modeling (Basic DAX)
- **MS Excel:** Pivot Tables, VLOOKUP/XLOOKUP, Charts, Data Analysis
- **Machine Learning:** Classification and Regression

PROJECTS

OTT Moderation Simplifier | Python, EDA, Machine Learning

GitHub Link - https://github.com/ashwinisaundore/Ott_Moderation_Simplifier

- Developed a **machine learning project** to simplify OTT content moderation using **Pandas, Exploratory Data Analysis (EDA), and classification models**.
- Performed **data preprocessing, feature engineering, and exploratory analysis** to understand patterns in multi-label content moderation data.
- Built and evaluated **multi-label classification models** using machine learning algorithms to automatically detect sensitive or inappropriate OTT content categories.
- Visualized insights and model performance to support **automated moderation decisions**.

Auto Insurance Claim Fraud | Python, EDA, Machine Learning

GitHub Link - https://github.com/ashwinisaundore/Auto_Insurance_claim_fraud_project

- Performed **data cleaning and preprocessing** on insurance claim data using **Pandas** and handled missing values, categorical encoding, and feature preparation.
- Conducted **Exploratory Data Analysis (EDA)** using **Pandas, Matplotlib, and Seaborn** to identify patterns and correlations related to fraudulent claims.
- Built **machine learning classification models** to detect fraudulent insurance claims and evaluated performance using metrics such as **accuracy, precision, recall, and F1-score**.
- Visualized fraud trends and key risk factors to support **data-driven fraud detection and decision making.**

EDUCATION

Bachelor of Science in Computer Science (B.Sc. Comp. Sci.) - *June 2025*
Savitribai Phule Pune University (SPPU)
R.B.N.B. College, Shrirampur, Ahilyanagar
Percentage: 75.81%

Higher Secondary Certificate (H.S.C.) - *March 2022*
SPPU, J. T. S. High School, Belapur, Ahilyanagar
Percentage: 55.50%

Secondary School Certificate (S.S.C.) - *March 2020*
SPPU, Keshav Govind Vidyalay, Belapur, Ahilyanagar
Percentage: 78.40%

CERTIFICATIONS

- **Data Analytics** – The Coders Orbit, Pune *(July 2025 – Present)*
